DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Jenkins on 09 January 2006.

The application has been amended as follows:

- On line 11 of claim 1, the word "aligned" has been replaced with --overlapping--.
- On line 12 of claim 12, the word "aligned" has been replaced with --overlapping--.

Allowable Subject Matter

2. Claims 1, 3-17, and 19 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claims 1 and 12 are allowable because of the apparatus with cutting teeth disposed on the blade body in groups with each of the teeth having a cutting extension above the tooth body height, that each tooth in a group has a cutting extension that does not have a portion of the cutting extension substantially overlapping with another cutting extension in the group, and that the sum of the widths of the cutting extensions is about equal to the width of the teeth bodies as set forth in the claims. In regards to Bonac (4,646,606) and Tsujimoto (D438,549), both references disclose a cutting with cutting extensions, however each cutting extension has a width equal to or greater than the width of the

tooth. None of the prior art cited discloses an apparatus that incorporates the use of cutting teeth disposed on the blade body in groups with each of the teeth having a cutting extension above the tooth body height, that each tooth in a group has a cutting extension that does not have a portion of the cutting extension substantially overlapping with another cutting extension in the group, and that the sum of the widths of the cutting extensions is about equal to the width of the teeth bodies to gradually cut away the work piece. Also, the term "substantially" is used with the term "overlapping" to take into account manufacturing tolerances. Therefore, in view of what has been stated above, the claims are allowable over the art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
